

## Pool Cover Pumps - 400 GPH Auto On/Off Water Spider Cover Pump

Item APSPIDER400A

### PRODUCT DESCRIPTION

This pump automatically removes accumulated water from the tops of pool covers and discharges it from a hose fitting. This prevents water from becoming too heavy and straining the pool cover causing damage. It is constructed of durable thermoplastic for years of trouble free service. These swimming pool cover pumps are designed for use on above ground or in-ground pool covers. Designed to pump an impressive 400 gallons per hour, the APSPIDER400A pool cover pump easily attaches to a standard garden hose for effortless water removal.

### FEATURES

- ▶ Provides protection from accumulation of precipitation. Efficiently removes standing water.
- ▶ Stable base. Unique design "spider legs" reinforce pump stability.
- ▶ Optimal auto switch mode for automatic operation
- ▶ Removes water down to surface
- ▶ Standard garden hose connection

### APPLICATIONS

- ▶ Above Ground and In-Ground Pool and Spa

### TECHNICAL DATA
