

# Max-Flo VS™

VARIABLE-SPEED PUMP SERIES

## Energy Savings That Are Just Right

Taking the first step in energy efficiency is simple with the new variable-speed Max-Flo VS from Hayward®. Offering up to 80% energy cost savings over single-speed pump alternatives via an integrated variable-speed drive and totally-enclosed, permanent magnet motor, Max-Flo VS is an ideal pool upgrade for those looking to reduce energy use and save money.

PUMPS

**Aligns with the entire Max-Flo line for seamless retrofit installations**

**See-Through Strainer Cover**  
Easy to see when the basket requires cleaning.

**All models include 1½" x 2" union connections**

**Superior Pressure Rating**  
Testable up to 50 psi maximum.

**Latest hydraulic design for increased efficiency and priming ability**

**Self-Priming Capability**  
Suction lift up to 8' above water level.

**Integrated, Programmable Interface**  
Customize speed, duration, and priming time while monitoring power consumption.

The digital interface shows power consumption for immediate feedback to maximize energy savings.

**Advanced Motor Design**  
Permanent magnet, totally-enclosed fan cooled (TEFC) design provides incredible energy efficiency and reliability.

Incredibly quiet operation, especially at energy-saving, lower speeds.

## Max-Flo VS™ Pump

Variable-speed pumps are the ultimate way to save energy while enjoying your pool. Most other variable-speed models, however, are oversized when compared to medium-head pumps such as Hayward®'s Max-Flo series. The all-new Max-Flo VS is right-sized, particularly for applications with 1.5" or 2" plumbing, providing tremendous energy savings that result in an even faster return on your investment.

The digital interface shows power consumption for immediate feedback to maximize energy savings.

Max-Flo VS provides customizable speed, duration, and priming time to match the needs of both aftermarket and new construction installations. Programmable timers and a permanent magnet motor mean this pump meets the requirements of swimming pool efficiency standards such as Title 20 and APSP-15.

Upgrade and save with Max-Flo VS!

**MAX-FLO VS PERFORMANCE COMPARISON**

### MAX-FLO VS PUMP BUYING GUIDE

MODEL NUMBER	SP2300VSP
TOTAL HP	1.50
MOTOR DESIGN	PERMANENT MAGNET, TOTALLY-ENCLOSED
SPEED RANGE	600 - 3000 RPM
VOLTAGE	230V SINGLE PHASE
UNION CONNECTIONS	1 1/2" x 2"
