

QUANTUM

WN SERIES

Spa Electrics' Quantum WN Series is the ultimate in LED lighting for your new pool installation. With its stylish and robust design, this light offers unparalleled brightness and energy efficiency that sets a new benchmark in underwater lighting.

SPA ELECTRICS is Australia's market leader in the design and manufacture of underwater lighting. Our Quantum WN Series is the culmination of over 35 years of experience and expert knowledge.

Discover for yourself why the Quantum WN Series is the premium choice of pool building professionals.

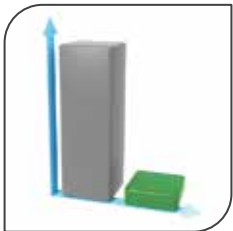

DURABILITY

Engineered for reliability and durability, the Quantum WN Series LED utilises high impact and chemical resistant materials.

SUPERIOR BRIGHTNESS

Available in single and multi-colour models, this high output LED provides superior light distribution and seamless colour transitions.

ENERGY EFFICIENCY

Custom engineered driver technology delivers greater illumination than a 100W halogen light, while consuming less than 12 watts of energy.

DIRECT CONNECT

Patented detachable cable connection provides a safe and robust electrical connection that eliminates the most common cause of water entry in underwater lights.

ADVANCED COOLING

This vented design utilises convection to draw cool water in behind the light to the external heat sink to ensure maximum cooling and efficiency.
